ABOUT LOGIC TECHNOLOGIES

An Indian technology company delivering end-to-end IT infrastructure, security and surveillance solutions.

COMPANY PROFILE

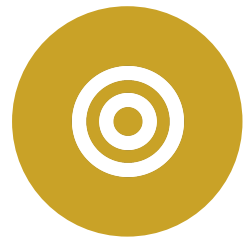

Building Smarter, Safer Infrastructure

Logic Technologies is a Ghaziabad-based systems integrator specializing in CCTV surveillance, IT networking, structured cabling, fiber optics, security, and automation. We partner with corporate offices, hospitals, educational institutions, warehouses, factories, hotels, retail chains, government bodies and residential communities to design and deploy infrastructure that is reliable, scalable, and future-ready.

From initial site survey through installation, configuration, and ongoing annual maintenance, our certified engineering team manages every stage of the project lifecycle — so clients get a single accountable partner instead of juggling multiple vendors.

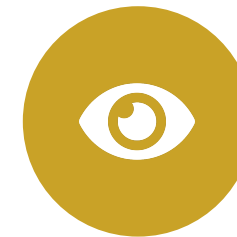

-  **Genuine, brand-authorized products**
-  **Certified & experienced engineers**
-  **End-to-end project execution**
-  **Responsive AMC & technical support**

Mission & Vision

Our Mission

To deliver reliable, high-performance IT infrastructure and security solutions that protect people, assets and operations — backed by honest advice, quality products, and dependable after-sales support.

Our Vision

To be the most trusted technology infrastructure partner in North India, recognized for engineering excellence, integrity, and long-term client relationships.

WHAT WE STAND FOR

Our Core Values

Integrity

Transparent pricing and honest recommendations, always.

Innovation

Adopting the latest technology to solve real infrastructure problems.

Reliability

Systems engineered to perform when it matters most.

Customer First

Every design decision starts with the client's needs.

Quality

Only genuine, brand-authorized hardware leaves our warehouse.

Teamwork

Certified engineers collaborating across every project phase.

Why Partner With Us

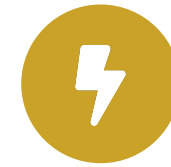

Certified Engineers

Trained, experienced technical teams for every trade.

Genuine Products

Authorized brand partnerships, zero counterfeit risk.

Rapid Deployment

Structured project management keeps timelines tight.

Regional Reach

On-site support across Ghaziabad, NCR & North India.

Custom Design

Solutions engineered around your site, not off-the-shelf.

AMC & Support

Proactive maintenance contracts that prevent downtime.

WHAT WE DO

Our Services

CCTV Surveillance

IT Networking

Fiber Optic Solutions

Structured Cabling

WiFi Solutions

FROM SURVEY TO SUPPORT

Our Installation Process

Every engagement follows the same disciplined process — from an on-site survey and detailed design, through professional installation and configuration, rigorous testing, and user training — followed by ongoing AMC and responsive technical support to keep your systems running at their best.

THE LOGIC DIFFERENCE

Why Choose Logic Technologies

Certified Engineers

Skilled, trained professionals handling every installation.

Original Products

100% genuine, brand-authorized hardware — no compromises.

Fast Installation

Structured project management for on-time delivery.

Warranty & Support

Full manufacturer warranty plus responsive AMC support.

LET'S BUILD TOGETHER

Get In Touch

Ready to upgrade your CCTV, networking or security infrastructure? Our team is ready to survey your site and design a solution that fits your needs and budget.
